DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

2. Claims 22-24, 26 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morikawa et al (US 6,743,749).

Morikawa et al teach a method of doping nitrogen to titanium dioxide by thermally treating titanium dioxide under a nitrogen-containing gas at 550 °C (see col. 5, lines 54-64), which is within the claimed range of the heating temperature. Thus the doping method and the starting material for doping taught by Morikawa are identical to those claimed. The only difference is the shape of the titanium dioxide: film versus particle. However, different shapes of titanium dioxide do not require different doping gas or doping temperature as long as the material to be doped remains the same (titanium dioxide). Thus, the doping method taught by Morikawa is equally applicable for various physical structures of titanium dioxide. Therefore, one having ordinary skill in the art would have found it obvious to apply the doping process taught by Morikawa on titanium dioxide particles if doped particulate titanium dioxide is desired.

3. The examiner has obviously inadvertently omitted a rejection to claim 22 and 27 in the last office action. Any convenience due to this omission is sincerely regretted.

Allowable Subject Matter

4. Claims 1-11 and 13-20 are allowed in view of the amendment.

5. The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art of record, singly or in combination, teach titanium dioxide particles doped with at least two specific elements including at least 700 pm of nitrogen dopant as claimed. As shown in the specification, the specific proportions of nitrogen dopant and titanium dioxide content as claimed provides titanium dioxide particles of superior photocatalytic properties.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.
